Sharing God's Grace, Serving Through Love

## Were You There?

We all know the old favorite Lenten hymn - *Were You There when they Crucified my Lord?* And probably most of us at one time or another have heard a sermon explaining that the correct answer to that question is "Yes, because I too am a broken and sinful person in need of God's grace!"

But that is not really what this article is about. This song just popped into my head when I was thinking about how I should title this article! What I am writing about is something different to which the question applies! *Were you there?*

By which I mean, were you in church last Sunday? Did you attend either online or in person?

There are two reasons I am asking this question. I'll start with the less obvious one. The church office needs help knowing whether or not you were in worship! Our Administrative Assistant Anne Marcengill records attendance in the church database each week, but if you attended and did not fill out the fellowship books that are passed down the row, she has no way of knowing you were there!

Unlike some pastors, I cannot remember every person who was in church on Sunday. What goes through my scattered mind is, "I remember that I have seen you lately, but was that last week - or the week before? Or a month ago?" In addition of course, I am not here every Sunday, so on the weeks that Pastor Craig leads worship or that our occasional substitute Pastor Becky Albright leads, it is even harder for Anne to know if you were in worship.

Which leads to the second reason I am asking, *Were you there?* This is the reason that you were probably guessing I was heading toward. Not whether your attendance was recorded or not, but were you in worship - at all?

We all know the world is different. We are all so busy with so many things. Fewer people attend worship every Sunday than in the past. I understand that sometimes you just might feel like all you can do on a given Sunday is simply stay at home and rest. We all understand that feeling.

So this is not an attempt to chastise you or try to make you feel guilty for missing church. I just want you to know that when you are not in worship, others miss you! Without all the members coming and going, the church is less than it could be. The fellowship, the song, the service, the spirit that brings us hope - so many aspects of church is diminished without all of Jesus' followers as part of the life of our community.

Additionally, I believe, when we miss worship, we are missing an opportunity to be renewed in our faith. Yes, we can grow through personal devotion, prayer, and scripture reading. Yes, we can grow by watching a worship service online. But our faith is nourished most fully in community. Our discipleship grows in being together. Our impact - our ability to do the work of sharing the Good News of God's Love which we are called to do as followers of Jesus is multiplied when we support one another in doing it together.

To be honest, the reason that I think participating in the St. John's livestream is different than watching some random televangelist on TV is because most who participate in our livestream are already a part of the St. John's community - are already in relationship with the members of

the congregation. Joining the livestream therefore keeps members connected to what they are already a part of. This is why we will not stop streaming. We have learned its value for those who are homebound or sick or traveling or for whatever reason simply could not make it on a given Sunday. But we also know that relationships are best nourished by being together with our beloved.

*Were you there?* I invite you to hear this as an invitation. If you fall into the group that still just hasn't gotten around to coming back to worship since the worst of the pandemic passed, we miss you! If you fall into the group that has gotten into the habit of mostly sitting at home in your pajamas with your coffee, watching the stream, your friends miss passing the peace with you and catching up on life before and after the service! If you are one of the millions of people who simply don't go as often as you used to, hear this as an invitation – an encouragement – an appeal – don't let go of that which brings joy! Don't let go of that through which Jesus warms your heart and opens your eyes to the calling which God has for you!

Worship is about community. Community is about relationship. Relationship is about Love. And Love is what transforms everything. Were you there? If not, put it on your calendar for next Sunday!

Peace. Be well. Seek justice.

## From the desk of Pastor Craig

I keep hearing that we Americans are more divided than ever. The news keeps portraying the huge gulf between Republicans and Democrats, liberals and conservatives, racial tensions, and even mainline Christians being pitted against evangelicals. I'm afraid that these characterizations take on a life of their own. While I know firsthand the challenges of talking political issues with some of those who have differing views, I also believe that many of our leaders are doing us a disservice by trying to exploit those differences. Some of our political figures and media personalities seem to thrive on seeing how outrageous they can be and how much they can rile up the populous. Exploiting latent anger is a devious and destructive strategy which ultimately leads to nothing positive.

One of the hallmarks of our democracy in the past has been how we can hold opposing views but still treat each other with respect and come together for the sake of the common good. This is also true for people of faith. We may see our mission differently, but we come together in worship, prayer, and commitment to a common creed. Mature people understand that we will not always agree, but we need to move forward. Name calling, belittling others, demonizing those who disagree gets us into the kind of situation we find ourselves in now.

We need to do better. We need to expect-I think even demand better from ourselves and especially from those who would want to lead us. It begins with that great image from the psalmist-"Guard the door of your lips!" Martin Luther encouraged us not only to not bear false witness against our neighbor, but to put the best construction on the motives of the other. If God sees us as sisters and brothers in Christ, then let's try our best to live into that vision.

Of course, we know the realities of sin, beginning with our own shortcomings. But let's see if we can lower the temperature in the current public discourse. As that wonderful song goes, "Let there be peace on earth, and let it begin with me." I choose to believe there are better days ahead. I hope you will join me in both praying and acting to move us in that direction.

Finally, I give thanks that the tensions and rancor in society have not spilled over into our church. It is such a pleasure to worship and serve in a healthy and generous church community. Your leadership works very hard at maintaining transparency and being faithful to our callings. We're far from perfect, but your gracious encouragement and willingness to be involved are greatly appreciated.

Pastor Craig

## Youth and Deacon Katie

Our youth have had a busy summer. We attended church camp at Lutheridge, June 18-24, and went on a servant-learning trip to *The Dwelling*. June 25-30. Our youth learn so much when they go to *The Dwelling*, a Lutheran congregation in Winston-Salem NC which is made up almost entirely of persons who are experienced or have experienced homelessness. I am grateful for their servant's hearts. *The Dwelling* impacted them in new ways that were different from last year.

We have a new playground at the church, and I am excited to share that we have moved family time at the park from Pigeon Point Park to our church playground. Please join us. Snacks and drinks will be provided.
